

KS3 – Program of Study

Hi Key Stage 3 – I hope you are all well. Over the next few weeks I have set you work to do based on your year group and your grouping.

Please check what exercise you are expected to do based on your individual grouping.

All the challenges are from the White Rose Maths website that you guys can access. Simply:

1. Type in **White Rose Maths** into your search engine.
2. Go to the home learning section once on the home page.
3. And complete the tasks for the particular week.

I will down load the activity sheet so that you do not have to go on White Rose every time. This sheet will be posted on the school's webpage.

Some of the work will simply be revision of previous units – other work will be newer to you and may need some explaining.

On the website every section comes with its own teaching video so if you are unsure, or have simply forgotten, you can watch the tutorial to give you extra help.

After you have completed the exercise you can check your answers as each section comes with an accompanying answer sheet.

The White Rose maths work tends to be quite hard so I have tried to allocate work that is similar to your individual grouping levels.

If you find the work too easy then please simply move yourself up to the next group.

Good Luck GUYS – missing you loads.

Mr Pickup

P.S – as a starter have a go at time table rock stars; we can set up a group competition and award prizes when we get back.

Program of Study

Group 1 – Rapid Maths Books 1 and 2 – Home Learning - Year 2

Group 2 – Rapid Maths Books 4 and 5 – Home Learning - Year 4

Group 3 – Year 7 Book 1B - Home Learning – Year 6

Group 4 – Year 7 Book 1C - Home Learning – Year 7

Group 5 – Year 8 Book 2A - Home Learning – Year 6

Group 6 – Year 8 Books 2B and 2C - Home Learning – Year 8
