

Lesson 3- Lefty and Ned Cartoon

- Use the copy of the ballad to help you break down the narrative (story) into 11 steps to draw and describe. There are 11 stanzas so you might want to illustrate and describe each stanza separately if that's easier. Write a sentence or couple of sentences to describe what is happening in each section.
- Either draw out your own storyboard into your book, copying this one, or print this off and work on the sheet. You could type your writing before printing off to draw your illustrations into the bigger boxes.

The Sad
Story of
Lefty
and Ned
