

Adding Two Digit Numbers

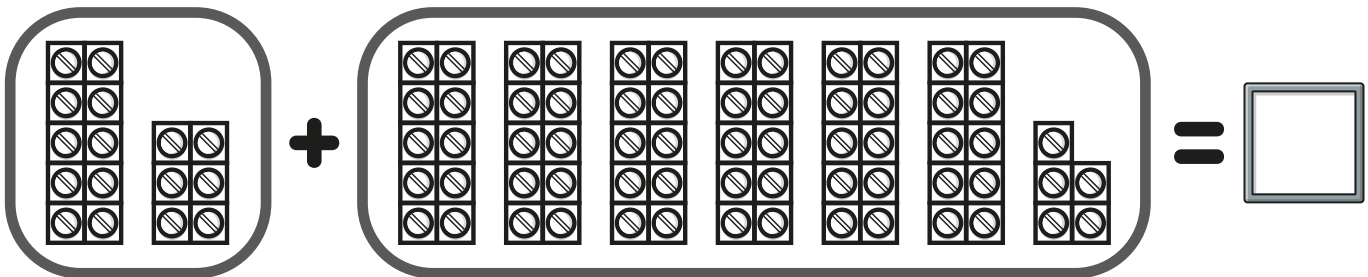

1.  Write how many blocks there are in total to answer the question.

67 + 27 =

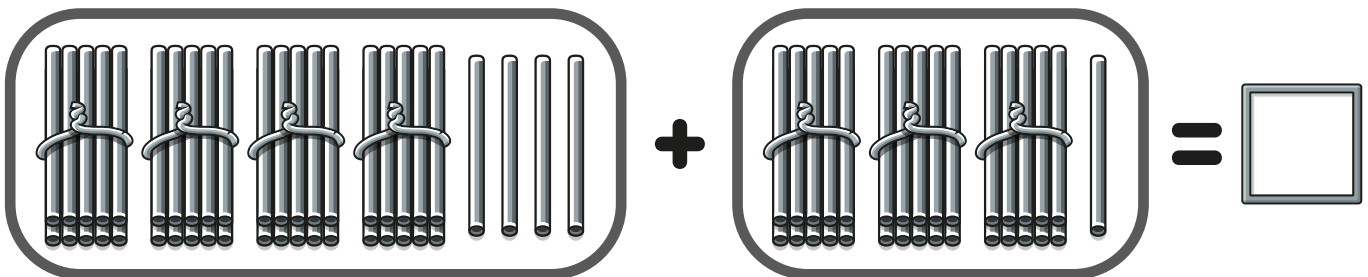

57 + 32 =

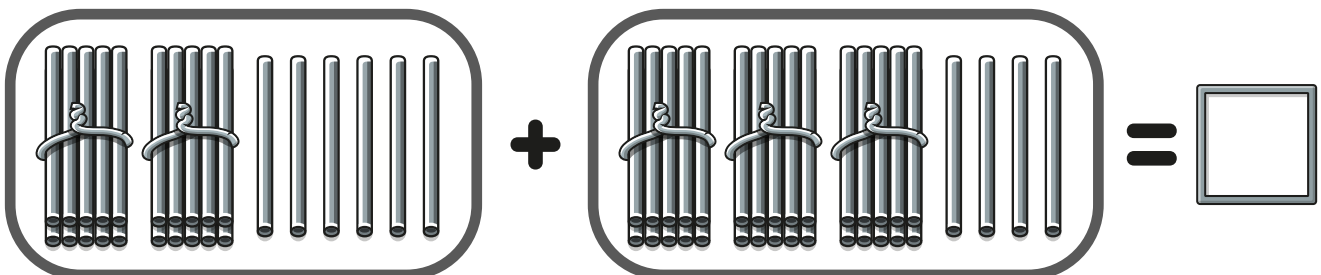

27 + 62 =

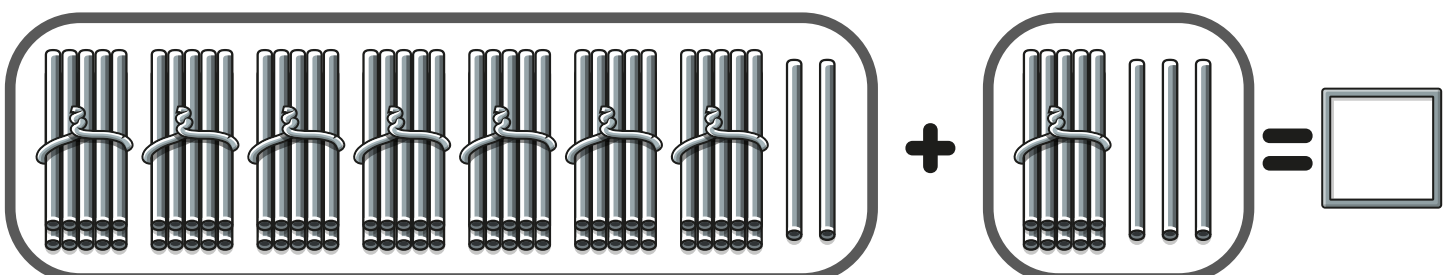

2.  Write how many sticks there are in total to answer the question.

47 + 32 =

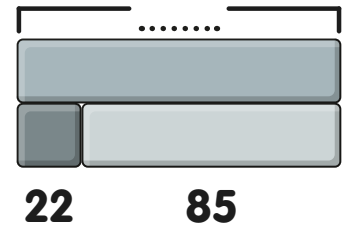

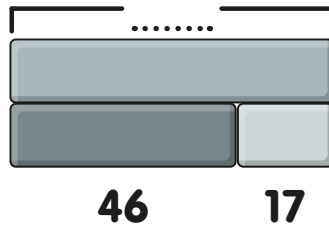

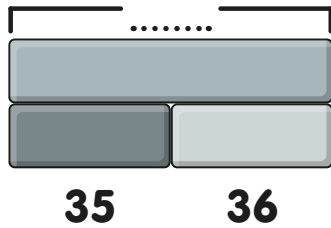

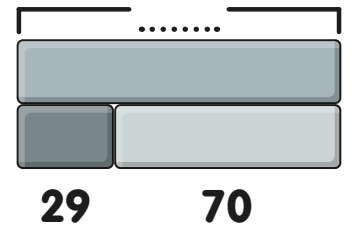

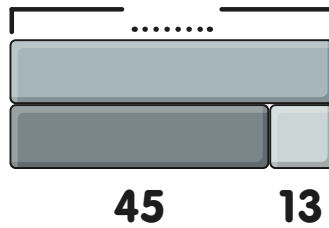

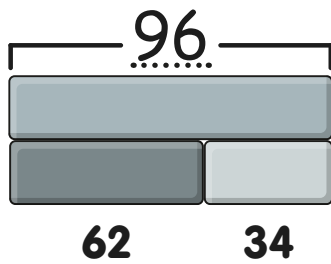

27 + 32 =

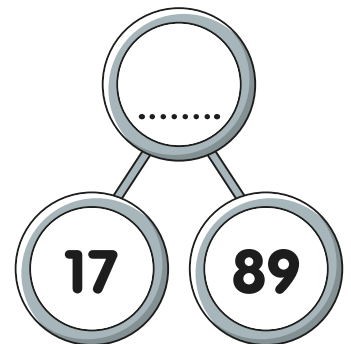

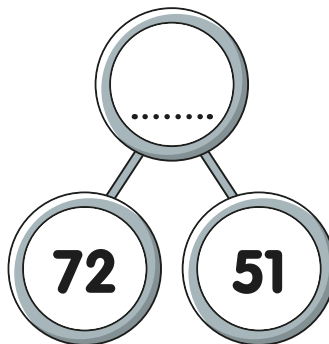

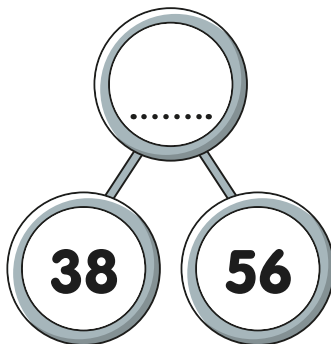

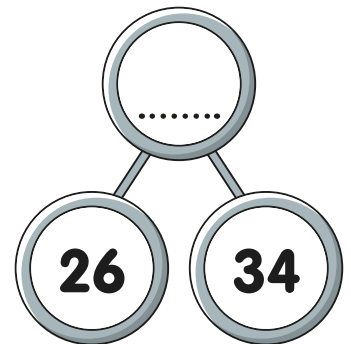

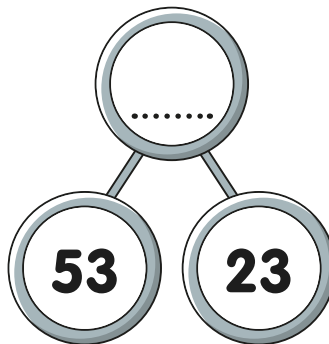

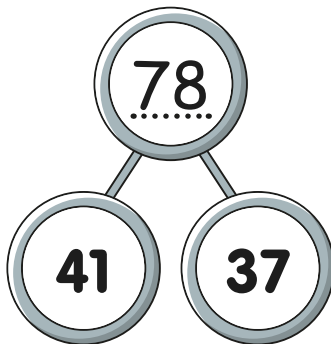

77 + 22 =

3.  Write the missing number in the bar model.

4.  Write the whole value by adding the parts together.

5.  Answer the questions.

$$14 + 79 = \boxed{93}$$

$$61 + 23 = \boxed{}$$

$$22 + 47 = \boxed{}$$

$$36 + 63 = \boxed{}$$

$$78 + 14 = \boxed{}$$

$$50 + 55 = \boxed{}$$

$$16 + 49 = \boxed{}$$

$$25 + 82 = \boxed{}$$

$$24 + 95 = \boxed{}$$
