

### **Year 5 & 6 Maths Home Learning Week 3**

Hello Year 5 & 6! I hope that you're finding these activities useful and enjoyable. From this week onwards, we will be including White Rose Maths learning materials as an option for you to follow / complete at home in addition to practising your times tables and the tasks on the Daily Activities sheet.

You will need to visit the White rose website to access the video clips for each lesson, there is no need to print out the question sheet, just write the answers on a piece of paper.

Miss Johnston 😊

#### **Parents & Carers**

We'd like pupils to continue to focus on practising times tables and the weekly maths theme from the Daily Activities sheet, but if time allows, these online lessons will provide some useful numeracy practise too.

To complete them, pupils will need to watch the video and then answer the questions on the accompanying PDF document. There is no need to print the PDF – they can write an answers on paper instead. If they do not have equipment required to answer a question (e.g. a protractor) please don't worry, just skip that question. If your child finds the activities for their year group too challenging, we suggest trying the activities from the year below instead. Activities for this week can be accessed via the following links:

Year 4: <https://whiterosemaths.com/homelearning/year-4/>

Year 5: <https://whiterosemaths.com/homelearning/year-5/>

Year 6: <https://whiterosemaths.com/homelearning/year-6/>

Answer sheets are available from the White Rose website.
