

Learning through Film

As members of the Into Film club, Glendale Middle School families can access learning packs based around films. The link is below:

Although Into Film cannot send us the films at the moment, many of them are available on Sky, Netflix etc or families may already have the films on DVD. Please feel free to download the packs if you are able to play the films. You may find this another suitable way for your children, especially those with SEND, to learn.
